

Voyager 1 'Family Portrait' of the solar system taken 40AU from Earth

3rd Interplanetary CubeSat Workshop

Pasadena, California, USA
27-28 May 2014

iCubeSat 2014, the third Interplanetary CubeSat Workshop, will address the opportunities, technical challenges, and practicalities of space exploration with CubeSats. The workshop will provide a unique environment for open practical collaboration between academic researchers, industry professionals, policy makers and students developing this new and rapidly growing field.

Talks on astrodynamics, attitude control and determination systems, citizen science, citizen space exploration, communications, landers, launch opportunities, open source approaches, outreach, payloads, policy, power systems, propulsion, reentry systems, ride-shares, science missions, software, standardization, structures, systems engineering and other related topics are all welcome.

The workshop will be held on or near the California Institute of Technology campus in Pasadena, CA.

Abstracts due 1st April 2014 via iCubeSat.org
