## 7<sup>th</sup> Interplanetary CubeSat Workshop

Paris, France  
29-30 May 2018

*iCubeSat 2018, the seventh Interplanetary CubeSat Workshop, will address the opportunities, technical challenges, and practicalities of space exploration with CubeSats. The workshop will provide a unique environment for open practical collaboration between academic researchers, industry professionals, policy makers and students developing this new and rapidly growing field.*

Talks on astrodynamics, attitude control and determination systems, citizen science, citizen space exploration, communications, landers, launch opportunities, open source approaches, outreach, payloads, policy, power systems, propulsion, reentry systems, ride-shares, science missions, software, standardization, structures, systems engineering and other related topics are all welcome.

The workshop will be held on or near the campuses of l'Observatoire de Paris and École Normale Supérieure of Paris Sciences et Lettres in central Paris, France.

Abstracts due 1<sup>st</sup> April 2018 via [iCubeSat.org](http://iCubeSat.org)
