8th Interplanetary CubeSat Workshop Milan, Italy 28-29 May 2019

iCubeSat 2019, the eighth Interplanetary CubeSat Workshop, will address the opportunities, technical challenges, and practicalities of space exploration with CubeSats. The workshop will provide a unique environment for open practical collaboration between academic researchers, industry professionals, policy makers and students developing this new and rapidly growing field.

Talks on astrodynamics, attitude control and determination systems, citizen science, citizen space exploration, communications, landers, launch opportunities, open source approaches, outreach, payloads, policy, power systems, propulsion, reentry systems, ride-shares, science missions, software, standardization, structures, systems engineering and other related topics are all welcome.

The workshop will be held on or near the campus of Politecnico di Milano in Milan, Italy.

Abstracts due 1st April 2019 via iCubeSat.org
